Zhuhan Bao

Zhejiang, China | zhuhan.bao.ai@gmail.com | github.com/BaoZhuhan

Education

Hangzhou City University, B.Eng. in Software Engineering — Sep 2023 – Jul 2027
GPA: 3.77/4.0 Average: 86.29/100

Publications

SIMAX: A Scalable and Interpretable Framework for Multi-Fidelity and Annotated Clinician-Patient Dialogue Simulation
Zhuhan Bao[*], Rui Yang[*], Bohao Yang, et al., Chuan Hong[†]
Under review
arXiv:2606.30491 AutoEvaluation/SIMAX Dataset

Evaluating Multi-Turn Multimodal Diagnostic Reasoning on Challenging Real-World Clinical Cases
Rui Yang, Weihao Xuan, Yi Lin, **Zhuhan Bao**, Huitao Li, et al., Nan Liu[†], Yifan Peng[†]
Under review
arXiv:2607.25933 ruiyang-medinfo/ClinMM

Research Experience

Visiting Scholar, Advisor: Prof. **Nan Liu** — Sep 2026 – Present
Centre for Biomedical Data Science
Duke-NUS Medical School, Singapore

Visiting Student, Advisor: Prof. **Chuan Hong** — Jul 2025 – Sep 2026
Department of Biostatistics & Bioinformatics, Duke University School of Medicine
Duke University, Durham, NC, USA

Visiting Student, Advisor: Dr. **Peiyu Liu** — May 2025 – Aug 2025
Zhejiang University NESA Research Lab
Zhejiang University, Hangzhou, Zhejiang, China

Undergraduate Researcher, Advisor: Associate Prof. **Lin Sun** — Mar 2025 – Mar 2026
School of Computer and Computing Science
Hangzhou City University, Hangzhou, Zhejiang, China

Teaching Experience

Teaching Assistant, Advisor: Prof. **Kui Su** — Spring 2026
High Performance Computing

Teaching Assistant, Advisor: Dr. **Yuan Gao** — Fall 2025
German Basic Writing; German Translation: Theory and Practice

Project Experience

Embodied World Model Inference Optimization — Jan 2026 – Mar 2026
2026 ASC Student Supercomputer Challenge

vLLM Sampler Fusion and Optimization on Ascend 910B — Sep 2025 – Oct 2025
Huawei ICT 2025 Challenge

RNA 5-Methylcytosine Construction Optimization Jan 2025 – Mar 2025
2025 ASC Student Supercomputer Challenge

CPUBench Optimization Jul 2024
PAC National Parallel Application Challenge Preliminary

Industry Experience

Researcher, Benchmark Research Team Jun 2026 – Present
TouchStone AI Lab

Learning Experience

Competitions

1st National Service Computing Innovation Competition	**Excellent Award**
East China Regional Final of the Service Outsourcing Innovation Competition	**Second Prize**
2025 ASC Student Supercomputer Challenge	**Second Prize**
2026 ASC Student Supercomputer Challenge	**Second Prize**

Captain of School High-Performance Computing Lab Mar 2025 – Mar 2026
Hangzhou City University Supercomputing Center

HPC Benchmarking Experience 2024 – Present
Competitions and Research Projects

Captain of the Voluntary Maintenance Team Sep 2024 – Sep 2025
Voluntary Maintenance Team of the CS School

Skills

Certificates: CET-4, CET-6, PRC Driver's License (C1)
Programming Languages: C/C++, MPI, Python, Bash, Triton, CUDA
Skills: High Performance Computing, Medical NLP, Agent Engineering
Software & Platforms: Linux, Slurm, Intel VTune, perf, SSH, Docker, Git, Conda, PyTorch
